Tennessee Debt Issuers

Tennessee State Funding Board (SFB)

The SFB has responsibility for issuing all State general obligation bonds and notes authorized by the General Assembly. The State utilizes general obligation commercial paper to short-term finance its capital projects during the construction period. As projects are completed, this commercial paper is repaid with the issuance of long-term debt (general obligation bonds.) The State Funding Board debt management policy is located at:

<http://www.comptroller.tn.gov/sl/policy.asp>

Tennessee State School Bond Authority (TSSBA)

The TSSBA debt management policy is located at: <http://www.comptroller.tn.gov/sl/policy.asp>

Higher Education Facilities Bond Program

The TSSBA is delegated the responsibility for issuing bonds and notes to provide funds:

- to make loans to state institutions of higher learning to construct income-producing facilities, and
- to make funds available to the Tennessee Student Assistance Corporation for student loans under the Guaranteed Student Loan Program.

The TSSBA utilizes a revolving credit facility to short-term finance projects during the construction period. As projects are completed, the facility is repaid with the issuance of long-term debt (Higher Education Facilities Program bonds.)

Qualified Zone Academy Bond Program (QZAB)

The QZAB programs is a federal tax credit program created under Section 226 of the Taxpayer's Relief Act of 1997. QZABs are used to provide funds to make loans to local governments for certain educational projects. Security for the QZABs is the general obligation pledge of the local government borrowers. The program is enhanced by the intercept of the local governments' state-shared taxes. There is no cross default to the Higher Education Facilities Bond Program.

Qualified School Construction Bond Program (QSCB)

The QSCB program is a federal tax credit (2009) /federal direct subsidy (2010) program established through the American Recovery and Reinvestment Act of 2009 (ARRA). The 2009 and 2010 QSCBs were used to make loans to local governments for certain qualified construction projects. The TSSBA issued all of the QSCB bonds allocated under ARRA, so no additional debt will be issued for this program. Security for the QZABs is the general obligation pledge of the local government borrowers. The program is enhanced by the intercept of the local governments' state-shared taxes. There is no cross default to the Higher Education Facilities Bond Program.

Tennessee Local Development Authority (TLDA)

The TLDA debt management policy is located at: <http://www.comptroller.tn.gov/sl/policy.asp>.

Tennessee Local Development Authority Bond Programs

The TLDA has the responsibility for issuing its debt obligations to provide funds to make loans for the following purposes:

- to make loans to local governments for the financing of construction and improvements for water and sewer systems;
- to make loans to local governments for the financing of certain capital projects;
- to make loans to certain small business concerns for pollution control facilities;
- to make loans to farmers for certain capital improvements;
- to make loans to counties for the acquisition of equipment for use by county or volunteer fire departments serving unincorporated areas of the counties;
- to make loans to airport authorities and municipal airports; and
- to make loans under the Community Provider Program to mental health institutes and substance abuse facilities.

Tennessee Housing Development Agency (THDA)

THDA provides mortgage loan products at competitive interest rates to lower and moderate income persons and families in order to create safe, sound, and affordable housing opportunities across the State. The Bond Finance Committee of the THDA Board of Directors is responsible for overseeing THDA debt issuance. THDA has issued debt under the following four (4) general resolutions: the Housing Bond Resolution (Mortgage Finance Program) (the "1974 General Resolution"), the Homeownership Program Resolution (the "1985 General Resolution"), the Housing Finance Program Resolution (the "2009 General Resolution"), and the General Residential Finance Program Bond Resolution (the "2013 General Resolution"). No debt is currently outstanding under the 1974 General Resolution. THDA is currently issuing debt only under the 2013 General Resolution. The 2013 General Resolution does not bear the moral obligation pledge of the State. The THDA debt management policy is located at: <http://www.comptroller.tn.gov/sl/policy.asp>

Tennessee Loan Programs

State Revolving Fund (SRF) Loan Programs

The TLDA, in conjunction with the Department of Environment and Conservation, also administers the Clean Water and Drinking Water SRF Loan Programs, which make loans to local governments for sewer and safe drinking water projects. The TLDA does not issue debt to finance these loans. The programs are funded by federal capitalization grants and state appropriations. Therefore, the dollar amount of loans managed for the SRF Loan Programs is not included in the Total State Indebtedness.

Clean Water State Revolving Fund

The Clean Water SRF Loan Program was established pursuant to the Federal Clean Water Act as amended by the Water Quality Act of 1987 and the State Wastewater Facilities Act of 1987.

Drinking Water State Revolving Fund

The Drinking Water SRF was established pursuant to the Federal Safe Drinking Water Act and the State Drinking Water Revolving Loan Fund Act of 1997.

State Infrastructure Fund (SIF) Loan Program

The TLDA is also responsible for approving loans to local governments from the SIF for the construction of transportation infrastructure (street, highway, bridge, tunnel and any related roadway facilities) projects that provide public benefits by enhancing mobility or safety, promoting economic development, or increasing the quality of life and general welfare of the public. The TLDA cannot issue debt to finance these loans. Therefore, the dollar amount of loans managed for the SIF Loan Programs is not included in the Total State Indebtedness.

Energy Efficient Schools Initiative (EESI) Loan Program

The EESI Program was established by the Tennessee General Assembly in 2008 with \$90 million. The enabling legislation also created a twelve-member council, the Energy Efficient Schools Council, to approve guidelines, award grants and loans, verify energy efficiencies, and establish and support energy management programs. The EESI grants and loans provide funding for capital outlay projects to improve the energy efficiency in Tennessee's public K-12 schools. The Energy Efficient Schools Council contracts with the Office of State and Local Finance for the administration of these loans. No debt is issued in the capital marketplace; therefore, the dollar amount of loans managed for the EESI Loan Programs is not included in the Total State Indebtedness.
